

# Instructions: Serving Cake with Whipped Topping

Valley will send the whipped topping in either the manufacturer's original container (80 servings) **OR** an 8 oz. squat cup (15 servings). The containers should look like the ones pictured to the left. Topping should be refrigerated when received. The topping will be a \* item so should not be above 41 degrees.

## Congregate:

Place cake on tray. Serve **ONE** dollop of whipped topping on top of each piece of cake using a plastic spoon. See pictures below. You can use an additional spoon to help serve the dollop on top of the cake.

*Only serve **ONE** dollop on each piece.*

## Homebound:

Place cake in squat cup. Serve **ONE** dollop of whipped topping on the side of each piece of cake using a plastic spoon. See pictures below. You can use an additional spoon to help serve the dollop on the side of the cake. Place lid on squat cup. **Hold in container as usual for cold items until time for delivery.**

*Only serve **ONE** dollop on each piece.*
